

U.S. Corn Production By State #2

Name _____ Date _____

Each of the 21 U.S. states listed on the chart below produced at least 50,000,000 bushels of corn in 2001.

Round off each number on the chart to the nearest hundred million.

Then, on a U.S. outline map, glue next to each state one kernel of corn for each 100,000,000 (100 million) bushels of corn grown in that state.
